

Sonoran Science Academy

There is a great opportunity being offered to our students 8th grade and older. Global Teens is a program held through the YMCA. We have been invited to apply to this program for the chance to participate in a 2 week service project in Peru next summer. This trip will be paid for partially through scholarships (about half) and the rest of the money will be raised through community fundraisers. So not only will we be working internationally but also closely with our community. This will be a life changing experience for the lucky 6 selected. The selection process will be very professional; it will include a formal application with short essay questions, deadlines, and an interview process (great practice for our future college applicants). More details and the application for this program can be found on Ms. Morgan's website. If you have any questions feel free to contact Ms. Morgan at mmorgan@sonoranacademy.org or our contact person for the northwest YMCA is Huy Lu and he can be reached at huy1@tucsonymca.org Good Luck to all the applicants!!
